Only 1 future self-governing person in the world

Once upon a time in the infinite time of patience, the beginning of my new life appeared before the 2nd century, the 5th year... And in that moment, I watched a woman giving birth... Oh, she's giving birth, and soon she'll be in the hospital! I'm so excited, and I'm born with a plump ear on my left side, and my mother accepts me! It's like I'm experiencing it firsthand in real life! After all, it didn't turn out to be the end of life, so it's outdated or not saved in any case, okay!

Let's go, we have time, and now it's happening! Throughout the universe, on the refreshing planet Earth, from the full-fledged population of foreigners, our city, and our country, it's amazing to meet my parents, relatives, and everyone, and I'm the only one the most future-oriented self-controlling person in the world!! One thing controls everything that has happened throughout human history, and it's from animal to human, finally! Here's an example: it is desirable to be interesting to no one else, to oneself, to one's loved ones, to the audience, and to be popular, to learn how to train oneself with less difficulty! Is it completely right when we ourselves are defeated by our enemies, to respect them for their misfortune, and to have greater strength? Do they look at him or not, what will be improved or abandoned in the revolution, what is new, and what has been forgotten for a long time, as well as their shortcomings...

That's it, people's thoughts, we won't write anything else, it's pointless and endless!...

Results of self-control:

- Silly uncontrollability;
- Just weakness;
- Too honest.

RANK: *The Unintelligent and the Great*

Expected origin?...

There will be a leveling action until... Well, those choices will do, because what else is there?!

What is this next generation of age, not on the date, completely.

Given the elevation, after doing what the master did, he successfully connected the networks to the internet in these places!:

I. All places were there — Younger is not allowed! Now there is. :);

II. My house in 2013 — was made up of familiar things here on the middle floor, the view of the window directly opposite the church was unusual for the first time he baptized me, then they were renovated. Here, I was so fond of the network, and in the initial time, she registered me as my user on the first social network, where I posted photos of my first vacation and my maximum first-class age, but I was worried about my actions: was it a dangerous loss? Then, I kept repeating the system, but it wasn't until evil!? Three years later, I exchanged my house for a dacha and a new grandmother's house.

III. My summer cottage in 2020 — is an attempt to follow the same path as in the original one, but in March 4 years ago, I tried to keep up with the same path as in the original one, but in August, before exchanging my grandfather's belongings for this one, I left it for guests and moved to another location. It's impossible to get by without communication and the internet for a year, and by the end of summer, I'll be back to check it out. However, it's really boring, and after 1 year, I'll be back with the middle of the monuments. ;D (I'm not on vacation this summer, and I'll come up with something similar, which is a little exciting!)

Let's think about what we'll do right, and let's not be crazy or shrink for a long time, okay!?

Once again, I have hopes that they will create something new, but I don't have much time right now. So the protests to this, demanding the global internet, before abolished can completely turn off, in the last chance now the worldwide network all already threat fell out speed and remained international 3G to zero! Even demanded themselves finally leave from foreign services, and in fact belong to remain forever offline! Because from all the world, of course, angry irrevocable divorce our country and language through them! No decision locked no other country, and nothing really see no superstitious internet forever! So ancient!

Full thanks for planning the world record in the demonstration! There is contact, people!

Miss me and say goodbye, the way gone is never connected;(!...
